15 PER CENT TO THE TRADE

OUR List is not a long one, as we propagate the kinds we know to be hardy and valuable, and no others.

We make a specialty of growing Colorado Evergreens, which have attracted so much attention lately, both in this country and in Europe, and have by far the largest stock in cultivation.

Our Transplanted Trees are grown much farther apart than is usual, allowing them room to be taken up with perfect roots.

We also make a specialty of growing Evergreen Trees from Seed in very large quantities for Nurserymen, and Forest Trees for Planters.

WAUKEGAN UNION LABEL PRINTING CO.

Forest and Ornamental Tree Seedlings

All of these seedlings are nursery grown and are much better rooted, straighter and stockier than those collected in the forest or river bottoms. All of our seedlings are dug with a spade or tree-digger, while the forest grown ones are usually pulled up by hand, greatly injuring the root by so doing.
